

XV Escola Brasileira de Probabilidade

Mambucaba, Rio de Janeiro, de 31/07 até 06/08.

Poster Session

Name	Title	Instituição	Day and Time
Glauco Valle da Silva Coelho	Hydrodynamics for an exclusion process perturbed by shift operators	Universidade Federal do Rio de Janeiro	02/08/2011 16:30 - 17:30
Heloisa Maria de Oliveira	Analysis of queueing networks with state-dependent routing according to the join the fastest queue and join the smallest workload routing policy	IMECC	02/08/2011 16:30 - 17:30
Jesus Carvalho Diniz e Jose Carlos Simon de Miranda	Counting the intersections of random segments	Universidade Federal do Rio Grande do Norte	02/08/2011 16:30 - 17:30
Inés Armendáriz	Weighted permutations in Z	Universidad de San Andres	02/08/2011 16:30 - 17:30
José David Campos	Level 1 quenched large deviation principle for random walk in dynamic random environment	PUC de Chile - Santiago	02/08/2011 16:30 - 17:30
Karina Yuriko Yaginuma	Probabilistic Forests	Instituto de Matemática e Estatística	02/08/2011 16:30 - 17:30
Lina Dornelas Thomas	Building gene expression networks using bayesian statistics	Instituto de Matemática e Estatística	02/08/2011 16:30 - 17:30
Lucas Moreira	Random perturbations of stochastic processes with unbounded variable length memory	IMECC	02/08/2011 16:30 - 17:30
Luciene Pinheiro Lopes	Weighted Correlation Tests and Similarity of Distributions	Universidade de Brasilia	02/08/2011 16:30 - 17:30
