

XV Escola Brasileira de Probabilidade

Mambucaba, Rio de Janeiro, de 31/07 até 06/08.

Poster Session

Name	Title	Instituição	Day and Time
Magno Alves de Oliveira	Modeling of traffic in communication networks	Universidade de Brasília	04/08/2011 16:30 - 17:30
Manuel Alejandro Gonzalez Navarrete	Type-dependent interacting particle systems and their applications in the study of signaling biological networks	Instituto de Matemática e Estatística	04/08/2011 16:30 - 17:30
Manuel Cabezas	Sub-gaussian lower bound for the one dimensional trap model	PUC de Chile - Santiago	04/08/2011 16:30 - 17:30
Márcio Luis Lanfredi Viola	Markov chain indexed by a conditional dependence structure between the marginal chains on the state space	Universidade Federal de São Carlos	04/08/2011 16:30 - 17:30
Mariana Pereira de Melo	Asymptotic properties of the exit time probability	Instituto de Matemática e Estatística	04/08/2011 16:30 - 17:30
Marina Vachkovskaia	Random walks on Galton-Watson trees with random conductances	IMECC	04/08/2011 16:30 - 17:30
Miguel Natalio Abadi	Non-convergence in probability of the overlapping function	Instituto de Matemática e Estatística	04/08/2011 16:30 - 17:30
Pablo Martin Rodriguez	Generalizations and asymptotical results for stochastic rumour models	IMECC	04/08/2011 16:30 - 17:30
Renata Stella Khouri	Variable length random fields: an example	Instituto de Matemática e Estatística	04/08/2011 16:30 - 17:30
