Weierstrass Semigroup, Codes and Flags in Kummer Extensions

Alonso Sepúlveda Castellanos
University Federal of Uberlândia

work joint Luciane Quoos (UFRJ) and Maria Bras-Amorós (URV-Spain)

In this talk, we present results about Weierstrass Semigroup, Codes and Flags in two rational points over Kummer Extensions defined by the polynomial $y^m = f(x)$, where f(x) is separable.
