XXVI EBP in honor of Professor Antonio Galves

<u>Posters</u>

Population-based change-point detection for the identification of homozygosity islands
Lucas de Oliveira Prates

Central limit theorem for the limit process of the discrete time rap seen from the origin
Mariela Penton Machado

Some Models for a Relativistic Quantum Field Theory in Spacetime Dimension D =4
Michael O.

A Metastable System of Spiking Neurons
Morgan André

Detecting Renewal States in Chains of Variable Length via Intrinsic Bayes Factors
Nancy Lopes Garcia

Modelos de Yang-Mills na Rede: Estimativas de Estabilidade, Finitude da Energia Livre e Mais
Paulo Afonso Faria Da Veiga

Efficient posterior sampling for multivariate spatial count models
Sergio Henrique Andrade de Azevedo

Provable local learning rule by expert aggregation for a Hawkes network
Sophie Jaffard

Spectral density of random graphs and statistical methods in networks
Théo Borém Fabris

Sharp Convergence of the Mean-field Noisy Voter Model
Yangrui Xiang

Sharp Convergence for Noisy Stochastic SIS Model
Yangrui Xiang

What clustering sets of EEG data reveals about the brain
Fernando Najman
